Subject: 1000.00 KW Rooftop Solar PV Plant

Concepcion Solar PV Park,

Greeting from Ecomitram !!!

Reference: On 25 06 2026 my discussion with you

In line with our conversation(s), we have prepared a proposal of 1000.00 kW for you.

We hope that our proposal is as per your requirement and you soon give us a chance to serve you with our premium quality and service support.

We are one of the leading Solar Energy Company established in 2014, specializing in Industrial & Commercial Solar Power Plants for the last 10 years

Thanks and Regards

Shashank Jain

Director

ISO CERTIFIED

Certificate of Registration

This is to certify that

ECOMITRAM SUSTAINABLE SOLUTIONS PRIVATE LIMITED

**MAHAVEER COLONY, 57, GULABPURA ROAD, BIJAINAGAR,
AJMER, RAJASTHAN, 305624, INDIA**

has been independently assessed by QRO
and is compliant with the requirement of:

ISO 9001:2015

Quality Management System

For the following scope of activities:

**OFFERING QUALITY SERVICES COVERING ENGINEERING, PROCUREMENT, AND
COMMISSIONING (EPC) OF SOLAR POWER PLANTS, WITH DESIGN, OPERATIONS
& MAINTENANCE (O&M) SERVICES.**

Date of Certification: 1st April 2024

2nd Surveillance Audit Due: 31st March 2026

1st Surveillance Audit Due: 31st March 2025

Certificate Expiry: 31st March 2027

Certificate Number: 305024040116Q

Chaman Lal
Head of Certification

Validity of this certificate is subject to annual surveillance audits to be done successfully on or before 365 days from date of the audit
(In case surveillance audit is not allowed to be conducted: this certificate shall be suspended / withdrawn).

The Validity of this certificate can be verified at www.grocert.org

This certificate of registration remains the property of QRO Certification LLP, and shall be returned immediately upon request.

PROJECT EXECUTION

Project Planning

Evaluate energy consumption patterns, Assess solar viability and Obtain necessary permission and approvals

Site Survey

Check sunlight availability, Roof or ground space, Orientation and tilt, structural integrity, Environmental factors, etc.

Solar Design

Prepare 2D Design, 3D Design, Array Layout, SLD, String Layout, Cable Layout, Earthing Layout, LA Layout for solar system.

Design Approval

We secure client approval before starting the project, ensuring their contentment with the layout and details before installation.

Procurement

We proceed to procure all the required electrical materials as per the mentioned Bill of Materials (BOM).

Installation

We initiate the solar installation with a high priority on adhering to safety protocols and procedures.

Final Inspection

Upon completion of the installation, we schedule a final site inspection by our expert site engineer or an electrical inspector to ensure the plant's safety.

Educating Client

We educate the client about the Solar plant and its functionality.

Plant Handover

We proceed to hand over all essential documents, including warranty certificates, net metering documents, and design details, to the client.

Proposal

We are pleased to propose you the turnkey installation of **1000.00 KW** Photovoltaic Rooftop Solar Power Plant(s) in your premises @ **₹ 78270.67** per Watt Peak + GST

S.No.	Particulars	Price	GST %	GST	Price (with GST)
1	Rooftop Solar Power Plant (0% of Total Bill)	₹ 345	12 %	₹ 41.4	₹ 386.4
2	BOS + I&C (100% of Total Bill)	₹ 78270322.4	18 %	₹ 14088658.03	₹ 92358980.43
Total					₹ 92359366.83

* GST may vary at the time of billing, as per prevailing guidelines from Government

* This proposal is valid for 7 days from the Proposal Date

* If the capacity changes, the price will be applicable on a pro rata basis.

- Various National Award Winning Company
- 10 years of experience in Solar Industry
- Experience of 425+ Solar Power Plants with a combined capacity of 25000 KW
- 1 Year AMC included
- Professional Team of designers, engineers and technicians
- Premium service track record
- 1 Working Day defect response guarantee

Upon installation, we will ensure the health of whole system. It will be rigorously tested and implemented to be highly efficient and compatible.

Payment Terms

- 30% Advance at the time of Purchase Order
- 20% before Mounting Structures dispatch
- 30% before Solar Module dispatch
- 15% before Inverters dispatch
- Remaining 5% on commissioning of system

Note- We expect that you would be making Payments to us as per the agreed terms without any delay. However, in case of any delay for reasons attributable to you, Interest will be payable by you on overdue amounts @0.067 % per day (equivalent to 2% per month)

Expected Support from Client

Site specific considerations will require assistance and cooperation from the client, as outlined below:

- Provide access to work site for delivery of equipment and materials prior to and during project implementation.
- Provide a suitable and secure space for storage of equipment and materials.
- Facilitate interfacing with the client's resident engineering staff for consultation as needed.
- All the Statutory clearances, if any, required for the Project.
- Supply of electricity and water during the installation phase and maintenance activities.
- Supply of water for cleaning having TDS lower than 300.
- Provide Communication/Internet connectivity till inverter and Remote Monitoring Device.
- Quality of metal shed roof and its supporting material with load bearing capacity shall be insured by client.
- Provide fee and Security deposits of DISCOM, as per actual for the Net Metering process.
- Electrical inspector fee to be paid by the client directly to Electrical Inspector or Chartered Engineer.
- Regular cleaning of solar panels in client's scope. EcoMitram may provide this service on chargeable basis.
- Power Factor should be maintained by client. Automatic Power Factor Control system has to be installed and maintained by client. It is not in the scope of EcoMitram.
- DG Synchronizer may be required when solar has to be run with Diesel Generator will be in client scope.
- Insurance of solar power plant will be in client scope.
